## ARRIVAL OF THE OCEAN BIRD.

One Week I are from Cuba-Quick Trip of the Ocean Bird-News from Nicaragua-The Walker Government. The gow steam hip Geens Hird, Captala Graham, as-riced at this port; wherday, from New Orleans and Ha-vans, the cit the latter place on the 20th instant. We have received the following particulars of the trip of the Ceran Eira from Capt. Graham: —

STRASSBUP OCEAN Bino, | November 25, 1855. TO THE EDITOR OF THE BERALD.

at will no doubt be gratifying to you and many of readers of your paper, to learn the result of the mostly Ocean Bird's first voyage. I take great plea-The ship left the anchorage off the Battery, on Friday, as 2d, at 11 o'clock, and arrived in the harbor of Hava, a on the 6th, after a pleasant passage of four days and hours sailed thence on the Sthat 5:30 P. M., and wed at New Orleans on the 10th instant, making the from Havana to the Beile in forty hours, against a lew Orleans, left New Orleans on the 15th with a full arge of wheat and flour, and arrived at Havana on the carge of wheat and flour, and arrived at Havana on the lite, after a passage of two days and six hours; left the later port at 5:30 P. M. on the evening of the 20th inst., passed Cape Hatteras on the 23th and on the morning of the 24th, finding the strong head winds and high sea which we had encountered since leaving Havana increasing, and that we wanted about five tons of coal of being able to reach New York, we concluded to stop at Lewistown and take on board a few tons; accordingly we hand in for the Capes of the Delaware, where we received the desired quantity, and salled again for New York; and netwitastanding the severity of the head winds and seasocountered, and our days and eighteen hours. In ordinary weather the passage would have been accomplished in whee days.

BECAPTICLATION.

The El Dorado arrived at Havana on the 14th instant, on Aspinwall, whence she sailed on the 8th. She had unety-three passengers.

Our Nicacagus correspondent has sent to us, by th

way of Havana, the annexed letter:-OUR NICARAGUA CORRESPONDENCE.

CASTILLO RAPIDS, Nov. 3, 1855. -Names of the New Government-Colonel Kinney's Pros-

pects, de., de. We know nathing of what is going on in this country out from the reports of transit passengers, and our news may not therefore be so reliable as that sent to you di-rect from headquarters. On the 27th ult., General Corral not being able to wait for the time specified in the Walker and Corral treaty, entered Granada with his enthe command, consisting of 700 toot and 60 cavalry, and handed it over to his victorious brother General. After which a Tr Deam was chanted in the church. It is said that when the officers of the late government party saw the handful of red and blue shirted riflemen, who, under Walker, had captured their great stronghold, their grim Walker, had captured their great stronghold, their grim visages were treated to some extra confortions, quite in contrast to the milling countenance of Corral, who rode cound the ring, hat oil, braving to everybody within gunshot, and swaying to sold for in his saddle, as my informant seid. "The a nigger ou a big drunk." This fraternal embrace of Walker must have been highly greatifying to that gentlemm, who being a small man, was nearly taken out of the saddle by it.

Since the fraternization of the two armies. Granata has been a lively spot. Walker does everything in his power to prevent theft, drunkenness, and other execute, set, it is said, the precise distribution between mean and some interpretable, and that Corral's cavary have of distinguished themselves by their "tinformal reprisals" as to have carned the cuphonisus appellation of "the forty thieves."

On the 50th Doe Patrichio Rivas was du'y inaugurated as yet who

la" as to have carned the cuphonious appellation of the forty thieves."

On the 50th Don Particlio Riyas was du'y inaugurated as selected of the republic. I have not learned as yet who a Cabinet are, but understand that Parker H. French as to receive the appointment of Minister of Pinance; cyto Mayargo, Coloctor of Customs at San Carlos es. Walker was named krigadier General, Georal of twistons, Commander in Chief of the forces of Nicaragua. The tariff has been modifies on that no tuports are abjected to a city of over 20 per cent. Extra contributions of specie from the Transit Company have to supply to deficit in the Treasury.

At San Juan del Norte, Gov. Kinney appears to be sailly going ahead in a solid way. Considering what is has had to contend against, and what obstacles that over British stemer brings him an addition of a second to the party. These are men who come to work, of to fight, for Kinney still adheres to his original plan as every man coming brings ten others in his wake. In mety days the kinney col my will number at least 1,000 cm.

minely days the Kinney col ny will number at least 1,000 men.

Some have asserted that Kinney and Walker were endeavering to block each other's game. Those who know the two men will see the absurdity of this charge. Their sim is the same—the settlement and improvement of Central America; and that they have an understanding together cannot be doubted. In fact, when Walker was supposed to be in a tight place. Kinney offered him support, as a neighbor. There was no fillbartering about this, for the American Micheter had aiready recognized Walker as the government, and such aid was proffered by Kinney to bring the revolution to a close. That they will co-operate together in future, and make this now desolate and ruinous land a second Eden, is the player of every

## OUR HAVANA CORRESPONDENCE.

HAVANA, Nov. 20, 1835.

Another Rumor of the Recall of Gen. Concha-Funcral of ion-File Day-Prisoners Su to the Castle-2he Outrage to the Wreckers-Excitemen about the English Flest-Ravages of the Cholera.

The fastest steamship that has ever visited these waters, the Ceean Bird, departing this aftern on for New York, I cannot suffer her to leave without bearing with her a letter to the "universal Himand" from my pen. There is a report circulated here that General Concha is recalled, and that General Zarsila is to be his successor. I know not what truth may be in this report, but send it you for what it is worth.

you for what it is worth.

I attended, pasterday forenoon, the funeral of the Dowsger Countess of Reunion, who died the preceding day. It was, you will remember, at her residence the aplendid ball was given which I attempted to describe in a recent letter. Accustomed as I am to Spanish pemp aunerb displays I have ever witnessed. The corpse was perbly decorated with silver ornaments, upon the shoulders of four of the late Countess's slaves, a superb velvet pail being thrown over if. The Counts O'Ri-lly, Villa Nueva, Santo Venis, and an ald-de camp of his Excellency the Captain General being the pall bearers. Then followed some thirty male slaves, which had belonged to tollowed some thirty male slaves, which had belonged to the deceared Counters. They were all attired in a brilliant livery, but each wore a symbol of mourning. Succeeding there were a body of elderly women, who had for years been the tensioners of the Counters, each carrying sleng wax candle; then came a line of the carriages of our aristocracy and most respectable inhabitants, at least two miles long. I should suppose there were five brighted of them. Every hat was raised as the funcial procession slowly wended its way through the attacks. Although yesterday was a gala day amongst the Spaniares, being the Saint-Lay of their Queen yet Loudd not avoid observing, as we passed along, that the countenances of every individual who gazed upon us, expressed a feeling of erget that one who had been so pious and charitable, had passed to that "bourne whence no traveler returns." Feace to the manes of the departed Caunters.

no traveller returns." Feace to the manes of the departed Countries.

I have already stated that yesterday was the Saints' day of label Equada, and, as in only bound, all loyal spaniards observed the day at one of festivity. I was awalened at suntise by the booming of the cannen from the forts, firing the accustomed salute. This was respected by the Spanish mencef-war in the harbor, and by lier Britannic Majesty's brig-of war Paring, at 12 o'clock, and again by the forts at somet. There was a besimance at the "Palace" at moon and a grand reception and sail in the evening. The Palace was reithinarly illuminated, and scorned with curtains on the preceding evening, as well as last evening, as were also the Intendencia, the residence of the Count anto Venia, the soffee house called he "American Coffee House." The house of Sotolonge & Co. and the residences of an ious other "Caralauss" in officeral parts or the city. The centre such of the "Palace Fizzia" exhibited a number of pretty devices in particular and regulars on the ground, whist the Voluntarios were diawn as the words Viva Label. The share battle did not take place, but here was a grand review at the Campo Marto. There was, I should "guess," five or six thousand regulars on the ground, whist the Voluntarios were diawn ap in line on the Pace de Isabel.

as ground, whilst the Voluntarios were duays up in line a ground, whilst the Voluntarios were duays up in line a tre Pasco de leabel. I was misinformed and led into error in my last letter, which I stated that the Senarita Santaic had returned; in a recent number of the Gorda, inotice an edicilities upon Don José Miguel Inchanstiqui and Dona José a cantafe to appear at the Royal Castle of this city thin nine days, to free the motive from the charges and the state of the charges of the control of the charges of the control of the charges of the guilty of the first of these charges I am at the gords, and equally so how a mile can be, the male consenting Parhaps these spanish lawyers can make consenting Parhaps these spanish lawyers can make consenting Parhaps these spanish lawyers can be previous rumber of the Garda, Don Nicolas Vinotic minomed to appear at the Royal Castle of this city this nine days, to defend himself, he being charged the translerous homicide of Fon José Antonio Castle of the translerous homicide of Fon José Antonio Castle of the translerous homicide of Fon José Antonio Castle of the charge of the control of th

from Nassau, N. P., on the 16th inst. From her officers i learn that considerable excitement existed at Nassau, in concentence of the lives of some weekers, who had bearded and abandoned Spaniah a vessel which was on a key in the Baleana channel, having been taken by a Spaniah a med boat. The other wreckers were taken, I understand, to Clerchurges, there is putsoned an entire day, and then discharged, with a trifling amount of money given to them as compensation. Would it not be singular if the british fleet coming here was to enforce ample compensation for this wanton outrage? Writing of the Enish fleet is suggestice; considerable excitement was occasioned here by the intelligence when received. The copy of the Hintard you kinoly sent me, containing it, passed through at least a hundred hands, and it has not, to this hour, been returned to me. I could have sold it for live delires, but I reduced to accept any price for it.

sold it for five dollars, but I refused to accept any price for it.

The privileges granted to vessels bringing cargoes of coal, and to those taking away cargoes of molesses are to be continued until her Majesty's docation is given on the subject.

"La Facilia Keller" continue to draw crowded bouses at the Tacon. Amongst other representations given by them, have been such as "Our Saviour at the Fact of the Gress," &c. Is not this impleust De Sote, at the Ville Nucca, also bring; money into the treasury.

P. S.—I have this moment received a letter from Cenfaces, which says: "The cholora has carried off so many negroes from the existes in this neighborhood, that hey will be late ere crop commences."

The British brig of war Daring went to sea this morning.

Marawones, Mexico, Nov. 14, 1855.

Affairs in Matameres—Runneral Invasion by the Texans—
Preparations to Meet Them—Vidanteri and the Military—

Affairs in Matamorect—Removed Lieutsion by the Taxus—Preparations to Med Them.—Viduatori and the Milliary—Prenate Outsion House Opened at Regnosa, Camaryo and Micr—Rejocings for the Election of Alvarez, &c. &c.

List night an express arrived from the Governor of the State, Garza, who was yet in sight of Tampico, as Traconis, who commands the government troops there stationed, refuse to acknowledge the Governor's superiority in milliary affairs. He alleges that he is under Vidaurri's orders, who holds the appointment of Commander in-Chief of all the forces this side of the Sierra Madre. The question has been referred to the general government.

The rumored invasion of the country by some twelve or fifteen hundred Toxans continues to create quite an excitement, and measures have been taken to meet and drive them back. Vidaurri writes to old Alvarez not to send any troops from the miterior, as the army of the north will punish their temerity if they again commit the outrage f violating the integrity of the territory. What is the American Sceretary of War about? If these violators of the laws of mations judge of the present state of feeling here from the history of the past, they will, when too late, find out the terrible mistake they have made. The country will rise to a man against them, and rest assured that failure and rum will be the result.

Integues, over the whole country, are the order of the day, and the object is to keep the revolution from being fulfilled. The only man who keeps a stiff apper lip is Vidaurri, and he has officially informed the Minister of War that whatever troops are sent him must be entired in the army of the north, under his own command. The concentrates the milliary of the old regime against him, and the fact is, he is too pure aman for any appearance of the care with the early select, and the suce and they were an informed the him take charge of his office. A temporay derivant to overcrach the old regime against him, and the charge of his office. A temporay derivant to overcrach the

The Texan has been informed that maccasin tracks and other signs of Indians were discovered some twenty miles north of San Antonio, on the 6th instant.

The Texan hays that scarcely a night passes but horses or mules are stolen from San Antonio. A horse, valued at \$150, was taken out of a pen in the middle of the town last week.

San Antonio has been visited with grass hoppers in ruch numbers that they obscure the light of the sun. Hanger to the coming crops is apprehended by the piunters. So says the Texan.

Carn is selling in Grimes county at fifty cert a bushol. The Presbyicry of Western Texas held its fall meeting at Seguin, commeading on the 25th, and con inning three days. There was a full attendance of ministers and elders.

The San Enter was a full attendance of ministers and elders.

The Matagorda Chronide says the cotton crop of that county, when gimed, baled and numbered, will not exceed half the usual amount—shout four bakes to the hand. There had been heavy rains up the country, and the creeks were all swimming. The roads are reported to be in a verelebed condition.

In Braceria county, the Democrat says there will be fully one third more sugar made on many plantations than heretofore, and that its former estimate of the crop will prove rather under than over the mark.

The San Antonio feson has the foll-wing letter from a correspondent at Eagle Pass, added Oct ber 30:—

Our neighbors over the Rio Grande are in considerable excitement between threatening our poor Rittle town of Eagle Pass, and the walk of the such share the voice of the such passes of

NORFOLK, Nov. 23, 1855.

This morning, about 1 o'clock, Msj. J. Hunter, a magis This morning, about 1 o'clock, Msj. J. Hunter, a magistrate of Princess Anne county, arrived in our city, bringing under arrest Cept. Lambden, of the schooner Mary Ann Eliza, and his mate, Collina, upon the grave charge of kidnepping five slaves from Norfolk, from which port he soiled a few days since. It appears that in attempting to leave, while yet in Hampton Boads, the wied became too severe for him. He need every endeavor to escape from the danger gathering around bire, but in vain. His vessel was stranded about five miles above Cape Henry, when he leaped from hit deck and made for shire intending flight, but the negrees giving information, he was pursued and arrested. He has acknowledged in part the charge. His vessel halls from Delaware. NORFOLK.

Terrible Accident on the Property of the State of the Sta

report for the Calana.—Within the past two or three weeks some 20 000 barrels of flour have been purchased by a firm in this cit, for the British government, its destination is the Crimes. This flour has been paid for at an average of about \$7.75 per bil., which amounts to the room sum of one hundred and fity fire thousand of Breen larged absention, Nov. 23.

Washington, Nov. 24, 1855.

Things on the National Capital—The Political Capitalon in a Sieve—"perulation Rife—California and Missouri Sendon—The Mesonge—Report of Secretary of the Trea-

Sention:—The Message—Report of Secretary of the Trea-cury, de., de. Things are becoming truly interesting here. It is amus-ing to see the political wireworkers, to watch the politi-cal Hecates datce around the cauldron and throw in their mothy batches of isms, each one hoping that he may ba thrown upon the surface. No one seems to harmonize thire's upon the surface. No one seems to harmonize thire's with another, and everything is apoculation as to what will be the result of the game of fusion and confusion now being played on the political cheasboard. fusion now being played on the political cheasboard bers. The democratic leaders swear that they will "touch not, handle not," nor will they shoulder any responsibility. No bargain, condition or arrangement with them whatever. Then again, a few Southern Know Nothings, now around the board, are making desperate moves to win something even if it be a small prize. Small favors will be thankfully received, while the Northern Know Nothings and black republicans are certainly giving each other the regular "lugin hug"—locked in the most affect nate embraces—and playing the strong hand of the game. This rusion, it is believed by the most experienced here, will result in an organization on the first day of the session, and a clean sweep of all old officials from the Capitol.

of the seasion, and a clean sweep of all old officials from the Capitol.

I telegraphed you that there would likely be no election in California owing to the bitter feud between Harry A. Crabbe, Esq., and General Foote, the prominent wide and know Nothing candidates. The democrates occurse will lend their knoly also to perpetuate this feud and siave off the election to the next legislature, when, it is bedieved the democratic party will be again to the ascendancy.

I have just learned that precisely opposite causes are at work in the Missouri legislature. There, three great leading interests are to be introduced and considered viz:—the Atchison interest, the railroad lien interest, and the mammoth S are bank interest. With these three interests before the Legislature of Missourir at the same time, it is believed that by a judicious system of log rolling they can all be well cared tor, and the distinguished "border ruffian" re-elected to the United States Senate. Col Bentom wildently apprehends such a result, unless prevented by the systematic counter influence, the Bullion has set in operation.

The President's message will be ready for the public priner on Tuesday next, and I understand will be distributed to the press, as usual, in acvance of its delivery to Congress.

The report of the Secretary of the Treasury has already been submitted to the Cablect. It is of unusual length, and embraces a vast amount of statistical information. It is precounce a master production on the subject of our finances, and is attributed not to Mr. Guthrie, but to the pen of the Hon. Peter G. Washington, who uniterstands the financial system of our government better than any other man now living.

# Political Intelligence. THE NEW PARTY APPOINTMENTS IN ALBANY.

Political Intelligence.

THE NEW PARTY APPOINTMENTS IN ALBANY.

The albany Allos of the 24th Inst. says:—

The new State administration is assembled at Albany, to consolt in regard to the disposition of offices. Of course there is much gossip in relation to what they have done, and what they intend to do, much of which is eathered to Mr. St. John, late of the Bank Department, and declined by him. Hon. N. S. Benton was announced as his successor, by the Evening Journal—somewhat premeturely, but the nomination is supposed to stand.

The attention of his party was turned to Mr. Odell of Licingston, for this office; but the duties are too execting for his health. He is a member elect of the coming Assembly. H. Q. Lansing, Esq., of this city, is also strongly urged by his friends for this important post; and the number of candidates indicates that the appointment has not yet been definitely fixed upon.

Fey. Chauncey Burr has procased it to be published that he is appointed Deputy Secretary of State. In that case the Rev. Mr. Headley would constitute the head of the administration and the Rev. sir. Burr the toe. The Termor, like it e appointment, "lacks confirmation."

Capt. Frederick W. Waterbury, of Westchester, is a care bate for the office of Deputy Secretary, as is Nelsemish Stanton, Jr., of Mouroe, also of the last flouse.

S. H. Hammond, of this city, is to be Deputy Attorney General under Cuching.

We hear that Wm. Eggleaton Pan, of this city, has been designated as Superintendent of the first section of the Eric Caral. He was a Mather delegate to the Democratic Convention of 1859, contesting the react of the regular delegate; but he was then so little in asympathy with the democratic party as to go over to the Know Nothings on their first organization.

Meas of the cenal appointments are placed beyond the reach of the new regime by the disposition made of the finished work.

At a meeting of the Canal Board, held yesterday, John F. Clark, the S ate Engineer, offered the, following reso Intion:—

The St. Louis Republican of the 20th ins . says:-It reems to be understood that the election of Sena'or will

recass to be understood that the election of Sena'or will be brought on Monday next. That day has not been appointed for this purpose, so far as we have observed, but it is expected that it will be, and it is well enough so to consider it.

We see no reason to change our opinion, that the session of the Legislature will go over without the election of a Senator.

On the first batiot last winter, Mr. Benton received 40 votes; Mr. Atchison, 58; Mr. Doniphan, 59, and there was the vote scattering (weig). Since that time thace has been some changes. Carroll county, which then gave a vote for Poniphan, will now give one, we guess for Atchison. Cass county is represented by a whig asw in place of a Bentonich, who resigned: and Mr. Benton's vote is further reduced by the unitually death of two of his political triends at the Gascounde bridge, and by in junter received by two others, which prevent their ap-

juries received by two others, which prevent their ap-pearance at Jefferson City.

Accerting to our calculations, Mr. Benton's strength on joint ballot is reduced to thirty-four votes—a sufficient number, under a skitual leader, to prevent the election of Atchison or any of his immediate friends but not enough to induce any other party to rally to them.

MISSISSIPPI ELECTION. McRae's majority for Governor is about 7,000. Lake's majority over Singleton, democrat, in the Vicksburg district, is about 200. The democrate have four Congressmen and the Legislature, thus securing their U. S. Senator.

gressmen and the Legislature, thus securing their U. S. Senstor.

WISCONSIN.

Reports from all the cunnies in Wisconsin, except three—Polk, Pouglas, and In Points—give Bashford 725 majori y. The Milsaukie Scatinel does not think the counties to hear from on give at the outside, to exceed 200 to 250 majority for Governor Barstow, and therefore confidently anticipates Mr. Bashford's election by from 400 to 500 majority.

The returns of the legislative vote are nearly complete. The Senate will stand—"republicans," 12; demograts, 12. The Assembly—democrats, 44, "republicans," 34; independents, 2; and 2 to hear from.

The Milsaukie Wiscousa, of the 20th inst, says; "Douglas county on Lake Superior, and in which Superior City is located, is reported 600 majority for Barstow. This would elect him."

Jases Tarrow, the discoverer of the celebrated Grayson Sulphur Springs, in Carroll county, Virginia, died recently, at the advanced age of one bundled and eight years. The War Perartment has been neithed of the death of second lieutenant Warraman Parson Jr., of the First Arthury, who dies at Fort Moultrie, Charleston harbor, S. C., on the 18th hast.

S. C., on the 18th hast.

FRIZE FIGHT IN BOSTON.—Yesterday afternoon, white our vigitant piles were bury with their manifold duties a price fight came off under their very ness, will cut their teng in the slightest manner suspicious of such a matter and dreaming that even a respectable of gight was ensuing much less, that a boan fide pugificate contest between two human, for the supremary and a purse of \$100, was taking place in a private hill, senure most secretly, and guarded most watchfully. Yesterday John F. Ingler and Bartey Ford fought man to man, for eventeen min ster, and unded in the vanqualment of Taylor Ford hast to work to an complish his victory, and although he gained it, he was badly purshed. Taylor who had been on asserted a good bruiler, was badly used and finally earticle home in a carrage. There were about thirty of the tracy present, who paid \$5 each for admit tance. Betting in the beginning, was in tayor of Taylor.

Free Manusca Boston Merchant. Lin to come

THE MISSING BOSTON MERCHANT.—Up to noon The Missing Boston Merchant.—Up to noon to as a nothing new of material importance has been elicited in regard to the disappearance of Mr. J. S. Kilbourn. The opinion that he has committed suicide has been acrosshat occidence by his movements on the moning that he left his residence. He did not take his watch, and it is thought that he deposited two letters in the lost office after leaving home, which was about an hour before light, an Wednesday morning. The telegraph nessages he left, have been ascertained to be for parties in New York, advising them not to accept drafts to the amount of \$9.00 which had been drawn outless and for which the money had been received by Mr. Kinbourn on Tuesday.—Beston Trateller, Noc. 24.

The Late Snow Storm.—The late snow storm blew out in a violent gale at North Adams, Mass, and a building in course of creation for a Roome Catholic church and which had been resided in and partially chingses, was completely prostrated, entailing considerable less partite contractor.

Perticulars of the Fire in Miscon, Ga.

(Bross the Macon Journal Nov. 21.)

Yesterday morning the two story brick building owner to by Mr. James A. Raiston exteoring 200 feet on Third and 150 feet on theiry streets, was end; et destroyed to five. The fire was first discovered be ween four and 6 of check unever the state-case between the tax tenoments occupied by Asher Ayre, which leads from Third street to the care of the building W. W. Farker, Wen. Beasley, John Kulingworth, James Saymenr, Vin. Kibbee, Chas Centon (telegraph) operator? M. Opanensky, W. A. Joyce, Mesars, Chaffer, Boney, R. Arree and Ribney, Mrs. Wight, Wiss. Horne, and Mr. Falkon, (employee of the Central Estlinad.) all occupied rooms in the second story, and all of them, almost wethout an exput m, lost everything in their rooms. Mr. farker, whose rooms were newly said elegandly formshed, estimate his loss at \$7.00. Mr. exymour informs us that he handless everything, furniture, doning, and at hundred distars in bills, which he bad shody and with difficulty collected tegether, in odde to make a final solitowent with his creation.

The effice of the W. & N. O. Magnetic Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the corner of Telegraph Co. was also in the second story on the second story on the second street, and the second street, so continued the second story on the School and geodes and cherry street, was dollowed to the second street to Mr. Ayres, on Cherry street, was occupied by W. chimney and wall of the building on fire, (from which it was promptly removed without damage.

Professor Morwe's Telegraph.

Washington, Nev. 22, 1855.

To the Edward Markey was a street of the history of the Union.

My attention bas been attracted to an editorial article in the Union of this mouning, headed "A New Mammoth Company—Telegraphic Reporting," which demands of me in paties to interests entroused to my charge, a brief notice.

It is true that a company has been formed in New York, with a respectable capital, whose object is to lease the principal telegraph lines in the country, improve them, make them more reliable, increase their business, and thus senior them proditable to themselves as well as more useful to the community.

It is also true that this company have purchased the patent right of a new instrument invented by a Mr. Hughes, to which miraculous powers are attributed. I know enough of this instrument to be satisfied that it is a very ingenious piece of mechanism, and enough to know that it will never supersede Professor Morse's simple soid, because it is simple most beautiful invention. I also know, if there be faith in the prominent members of the new company, that they have no idea of building new lines South and West to be put in compellition with existing lines; that suggestion comes from another quarter, where 't the wish is father to the thought.''

Telegraphing by electricity is yet a new art, and to me it is rather a wonder it at so much has been as complished then that there are defeat yet to be remedied. You hit the main source of eithernity when you say "with a few exceptiors, lyou might may with none I our telegraphic lines are too slightly built.'' Nobedy at first, and few special with the area of defeat with none I our telegraphic lines are too slightly built.'' Nobedy at first, and few special with the pasts and conductors. With sufficient strength in the pasts and conductors. With sufficient strength in the pasts and conductors. With sufficient strength in the past is and co

Tresident of W. and N. O. Telegraph Company.

Telegraph Performance.—We certify that we worked the new line of telegraph on the Wilmington and Manchester Railread from kingaville to Wilmington with two cups of main battery, one cup at each ced only, and worked well. This was done October 28th, 1855, between the hours of five and eight, P. M., by request of the Superint adent, W. H. Herse—distance, one hundred and reventy one miles.

News by the Stalls.

The Legis'ature of Maryland assembles at Annapolis on the first Wednesday or January next, and under the constitution must close its session on the 10th of March enuing. As the time is limited, business will have to be burnled from the start.

A correspondent of the Wheeling Intelligencer states that the recent disturbance at Bothamy College, Va., was caused by an attempt on the part of several abolitionists who had entered the institution, to preach and debate mis-hievous decitines. Order was restored by the prempt distributed of the refractory members

prompt discrissal of the refractory members. The Suscex Repister says that application will be made at the next session of the New Jersey Legislature for a law reptailing all the laws of this State authorizing seven per cert interest. The Repister says that is aman where to obtain \$500 or \$1,000 of a local capitalist, upon good fresh id security he must go to Newack or Paters at to excure the bond. The seven per cent law is thus practically in operation in Suscex, in opposition to the wishes of the people, and in Suscex, in opposition to the wishes of the people, and in Suscex, in opposition to the wishes of the Jersen to the people and in deflarce of the authority of the Legislature. Under this education, an attempt will be made to repeat the seven per cent law, as it at present exists, and have the rate of in creat made uniform throughout the State. The feeling in relation to this matter is very different in various parts of the State, while the people of Susset oppose it, those of Middlezex intend apilying for it for their county.

The Legislaturé of South Carella a with convene to-day.

The Legislature of South Carolle a will convene to-day The Legislature of South Carolli a will convene to-day.

An vel presentment was lately made by the Grand
July of the Allegheny county, Ps., Cuminal Court, which
is an ord affer, and moots the question whether female
equestion trade at opticalizant fette and help shows,
"and such like improprieties" are not indicable of
faces.

In the Supreme Court, in session at New Bestord, on
the 12d usst, Mr. Albre, or fail lifter, rec. fored \$1,500
day ges, with interest from the time of seture from an
officer who, two years go, retical a quantity of liquor in
his persession. The seture clause of the liquor law havfre gets declared unconstitutional the present and was
brought.

The Mayor of Alexandria has affered a grant of \$1,000

trought.

The Mayor of Alexandris has offered a reward of \$1000 for the apprehension and conviction of the person or persons who first lower a clima store on the 16th last. The investigation into the cause of the fire is progressing privacely.

A petition to the Feursylvania Legislature is in circulation in I hilactichia, which cails for the appointment of authorized weighers of coal. The Imputer says this is a reform that is greatly needed and signatures by hundreds will be readily obtained.

A slaw named left suffered the extreme accounts of the

dreds will be readily obtained.

A slave named leff suffered the extreme penalty of the law at Mobile, on the 17th inst. The criminal was convicted at the last term of the city court of the murder of a tegro boy, the property of Mr. Johnson.

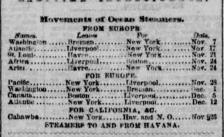

The steamer Selma arrived at Cheinnail on the 20th, having on board quite a number of slaves, with their masters, on their way to Kannas. The slaves were landed on the Kentucky side of the river.

Giv. John Francis, of the Passamaquoddy tribe of Indiana, has been chosen a delegate to the next Legiclature of Maine.

SPIRITUALISM AND THE BROKERS BOARD—PROPOSAL TO FORFILL THE RISE AND FALLIN STOCKS.

—It has long been a matter of regret with some journalists that the newly discovered science of epititualism could not be brought into use practifully, and a year or two since, one public spirited editor offered to contract by the column for a daily nerrotive of events occurring in Eurone, subject to the privise that payment for the same should be deterred until the more distray scenmer had endorsed the correctness of the revelations. This liberal offer was never accepted. We understand, however that a "spirituality of this city is confident that he can chain revelations of the future in regard to the rise and fall of stocks, and has made personal representation of the fact to nembers of the Board of Broker, foreign via services for their hencelt gratis. He has not, as yet, succeeded in inducing any of them to invest their money under his directions.

BRIG MARTHA HILL, before reported ashore on Naga Head, NC, is fell of water, bogged, and has sustained other damage. Her owners are about to try to Hausch her off the beach. A sehr arrived at Savannsh Elst it at with some indae from her. Brite Marsanilla, Belley at Portlane 22d inst from Phila delphia in a gale of Cape Elizabeth 22d, split fore atl and obt deck load of coal.

Notice to Marsiners.

His excellency the Gavernor directs it to be notified, for general information, that the following lights with be exhibited on Fial Island, and on the coast of Mauritius, on and from the last Dee text, vir.—

A first class revolving Catentric Light on Fiat Island,
A first class fixed the uppire Light on Cannonicer Point.

A red mast light on the left bank, and at the mouth of Grand river.

A first mast light on the left bank, and at the mouth of Grand river.

A green mast light on the left bank, and at the mouth of the last bor.

I retailed descriptions and calling direction for those lights are published below, for general information.

Colonial Secretary's Office, Sept 7, 1825.

Salling directions for making the archorage off the harbor of Fort Lows. Mauritius, with reference to the lighthouses recently erected upon 'Fat Island' and 'Camonier. Point,' at date the two most lights near the entrance of the harbor.

EXEMPTION OF THE MIGHT' STATE ISLAND.—This is a revolving Catoptric Light of the first order, divided at the southwest or highest extremity of the island, in lat 8 19 5 25, and ion 8 5, 385 determined by trian guilation from the Observatory of Fort Louis. Variation of the compass 11 47 12 W.

Its elevation above the mean level of the sea (the rise of tilde being only about 5 feet) is 556 feet, and it will be visible in clear weather from the deck of a resset 13 feet above the water, a distorce o'about 5 nay [cal miles.

CARRONING POINT.—This is a fixed Catoptric Light, also of the first order.

It is situated in lat 8 20 0 35, and len E 17 22 29. Its elevation

westher from the deck of a vessel 13 feet above the water, a distance o'sheut 50 angleal miles.

Carnowan Four, — his is a fixed Catoptric Light, also of the first o'der the set 50 angleal miles.

Carnowan Four, — his is a fixed Catoptric Light, also of the first o'der deck of the set is 59 feet dinches, and it will be seen the mean level of the sea is 59 feet dinches, and it will be seen the mean level of the sea is 59 feet dinches, and it will be seen to be not be nearly 15 miles and the water, a dissance of about 16 marical miles.

The objects of this Light are: to indicate the position of a dangerous sheal nearly 15 miles from the shere, and so keep vessels clear of the coral rects to the northeast and southwest of the Point.

Hermous Mark Lights.—One of these is p aced as a leading light (red) at the Barrelo Tower at the mouth and on the left bark, of the Grand river; and the other (green) at Fort George, on Torneller Light).

OREGINAL DIRECTIONS.

Vessels making the lead of the east ward (windward) side of the island, allowed give a hermon 25 miles to the rects off amber 1 sland, and be careful not approach the light on Plat Island on a course to the westward of NW by N ½ N until Graner's Cutch bears week, when they near shape a mile them of the course between Ganner's Quoin and Flat Island.

With to the westward of the Quoin the light at Cannonier Plat the December Fort, we may seem take the light of the influence of Cantocker Fort, we may seem the Plat Island and Cannonier Port India will be also of the Point. Thus given to the united miles, testing cas to keep the Cannonier Point light will appear in one—the change of this color to red within that distance, will indicate a too near approach to the light. Four fights will appear in one—the cases of care approach to the within that distance, will indicate a too near approach to the will be red light at the mooth of the Grand River will now be or eneed, bearing \*\*W. for which vessels may assay steer until the next light (given) upon For Gene, on Tonceller Island, terms \*E & S. when they may from the color of the sealor, being on the best pround—a pearer of proach to the Fight at Grand River would tring them too close proach to the Fight at Grand River would tring them too close for reeds.

It is "sixth is clear, the Corp de Garde needs.

It is "sixth is clear, the Corp de Garde needs.

It is "sixth is clear, the Corp de Garde needs of the property of the clearly reen in as with the Grand River light.

It is, however, presently advisable for vessels passing Camerier Point at night, to lay to, keeping sail to exastingly upon the elle for the purpose of may taking a sail to estimately upon the elle for the purpose of may taking a sail to estimately upon the state for the purpose of may taking a sail to estimate will be gained. Cerviderable risk, as well as the necessity for anchoring outside at all, will also be thus avoided.

E. O. FROME, Surveyor General.

EDWARD KELLY, Harbor Master.

EDWARD KELLY, Harbor Master.

Wheleneb.
A letter received in Holmen. Hole, from Capt Cromwell, of obly heindeer, reports her at Labaian, Sept 18 full; would die charge 200 bbis ed, all his bone, and take a cruise on New Zea and, and be at lotte in May or June. Had sent kome on the voyage 220 sp, and 20,000 bone, and 275 bbis whale.
